

The final movement keeps the viewer inside uncertainty.

Sight is behavior before it is style.

The image remembers every interruption. The gaze is not only a theme. It is a human signal system. The synthesis refuses easy balance. Large images take authority, and the argument is seen in motion instead of pretending it has settled. The conclusion is not decoration. It is the final proof of the argument: unstable sight is where learning happens. The conclusion keeps the theory visible. It does not invent quotations, publication details, or license certainty. It names the scholarly routes that support the issue and keeps the theory visible in the reading itself.

Looking becomes behavior, memory, and interpretation.

The image remembers every interruption.

Women through time become a visual archive. The gaze is not only a theme. It is a human signal system. The synthesis refuses easy balance. Large images take authority, and the argument

holds sight in motion instead of pretending it has settled. The instability is not decoration. It is the final proof of the argument: unstable sight is where learning happens. The conclusion keeps

the claims careful. It does not invent quotations, publication details, or license certainty. It names the scholarly routes that support the issue and keeps the theory visible in the reading itself.
